BRIDGING THE GAP

SHORT TERM MEDICAL INSURANCE FOR LIFE'S TRANSITIONS!

In the ever-evolving landscape of healthcare, individuals often find themselves in transitional periods where traditional health insurance might not be the most suitable option. This is where Short Term Medical Insurance comes into play. Let's explore what Short Term Medical Insurance is, who it benefits, and why it is a viable option for certain individuals.

WHAT IS SHORT TERM MEDICAL INSURANCE

Short Term Medical Insurance is a type of health coverage designed to provide temporary protection for individuals during gaps in their standard health insurance coverage. These plans are typically less expensive than traditional insurance and offer a flexible solutions to those in need of temporary coverage. Short Term Medical Insurance policies generally last from a few months up to a year, depending on the insurer and state regulations.

While Short Term Medical Insurance plans offer many benefits, they are not a substitute for comprehensive health insurance. They typically cover unexpected illnesses and injuries but may not include prescription drugs, maternity care, or pre-existing conditions.

WHY CHOOSE SHORT TERM MEDICAL INSURANCE

There are several reasons why individuals might opt for Short Term Medical Insurance:

AFFORDABILITY

Compared to traditional health insurance plans, STMI is often more affordable, making it an attractive option for those on a budget.

FLEXIBILITY

Short Term Medical Insurance plans are designed to offer flexibility in terms of coverage duration and plan options, allowing individuals to tailor their coverage to specific needs.

QUICK ENROLLMENT

The enrollment process for STMI is generally faster and simpler than traditional health plans, with coverage that can begin sooner.

PEACE OF MIND

For those in transitional periods, Short Term Medical Insurance provides the peace of mind that comes with knowing they have protection against unexpected medical expenses.

WHO BENEFITS FROM SHORT TERM MEDICAL INSURANCE

Short Term Medical Insurance is particularly beneficial for:

RECENT GRADS

Individuals who have just finished college and are transitioning into the workforce may experience a lapse in coverage. Short Term Medical Insurance can provide them with necessary protection until they secure employer-provided insurance.

JOB SEEKERS

Those who are temporarily unemployed or between jobs can use Short Term Medical Insurance to bridge the gap until they receive coverage from their new employer.

EARLY RETIREES

Individuals who retire before becoming eligible for Medicare might find Short Term Medical Insurance a cost-effective option to cover their healthcare needs during the interim period.

PART-TIME OR SEASONAL WORKERS

Employees who do not receive benefits from their employer can use Short Term Medical Insurance as a temporary solution to ensure they have coverage for unexpected medical events.

STUDENTS TAKING A GAP YEAR

Students who are taking a break from their studies may lose student health coverage and need a short-term solution.

Accessing The HealthBridge Insurance Network

All individuals enrolled in HealthBridge Short Term Medical Insurance plans have the option to utilize the PHCS Practitioner and Ancillary network providers. Details about the PHCS network can be found on your HealthBridge ID card, as demonstrated in the sample below.

While members have the privilege of using the PHCS Practitioner and Ancillary network, they are free to seek care and services from any provider of their choice. The Everest Short Term Medical Insurance is not restricted to a specific network, allowing for greater flexibility in selecting healthcare providers.

Understanding Provider Billing with HealthBridge Short Term Medical Insurance

When you choose a provider within the PHCS Practitioner and Ancillary network, the fees are capped at the PHCS contracted or discounted rate, which is considered the Maximum Allowable Expense (MAE). In this case, the provider is not permitted to charge you for any amount exceeding the MAE.

However, **if you opt for a provider outside the PHCS network**, your covered expenses will be assessed based on a "Usual and Customary Fee" review to determine the MAE. In such instances, you may be liable for the difference between the actual charges and the MAE, and these additional costs can sometimes be substantial.

Understanding the concept of balance billing is crucial. Be informed about the potential for balance billing and how it might impact your Short Term Medical Insurance coverage.

Important Note: The PHCS contracted rates do not extend to "facility" charges. For facility-related expenses, the insurance plan covers up to 150% of the rates allowed by Medicare. Specifically in Nebraska, as of February 2021, all practitioner, ancillary, and facility charges are reimbursed at 150% of Medicare allowable rates.

PHCS Physicians Network Benefits

Choice: Members can enjoy extensive access to over 814,000 practitioners, making it the largest primary PPO in the nation. To find a participating provider, visit www.multiplan.com or call **(800) 992-4362**.

Savings: By taking advantage of negotiated discounts or contracted pricing, members can achieve significant cost savings on healthcare services.

Quality: The network ensures high standards by implementing rigorous criteria and credentialing for providers, allowing members to confidently select their physicians from a top-quality network.

How This Benefits For Members

By utilizing network practitioners, covered individuals can significantly lower or completely avoid additional out-of-pocket expenses. This valuable benefit eliminates the possibility of balance billing for charges incurred with network providers. However, opting for non-participating practitioners might result in the insured being responsible for charges exceeding the Maximum Allowable Expense (MAE) for uncovered services.

Disclaimer: The amount of reduction varies by state and type of medical service received. Members must pay for all services, no portion of any provider's fees will be reimbursed or otherwise paid by MultiPlan PHCS network. PHCS does not process claims, they only provide a network of providers who have agreed to accept negotiated prices. The list of participating providers is subject to change without notice for more information about this network, please visit Multiplan.com.

Pre-certification Requirements

All inpatient Hospitalizations and procedures done at an Outpatient Facility **must be pre-certified**.

To comply with pre-certification requirements, the Covered Person must:

1. Contact the professional review organization at the telephone number listed on your I.D. card and in the Policy as soon as possible before the expense is to be incurred; and
2. Comply with the instructions of the professional review organization and submit any information or documents they require; and
3. Notify all Doctors, Hospitals and other providers that this insurance contains pre-certification requirements and ask them to fully cooperate with the professional review organization.

If the Covered Person complies with the pre-certification requirements, and the expenses are pre-certified, payment for Eligible Expenses will be made subject to all terms, conditions, provisions and exclusions described in the Policy.

If the Covered Person does not comply with the pre-certification requirements, or if the expenses are not pre-certified, **Eligible Expenses will be reduced by 50% (\$1,000 in OK)**.

Emergency pre-certification: In the event of an emergency Hospital admission, pre-certification must be made within 48 hours after the admission, or as soon as is reasonable possible.

Pre-certification does not guarantee benefits - the fact that expenses are pre-certified does not guarantee either payment of benefits or the amount of benefits. Eligibility for and payment of benefits are subject to all the terms conditions, provisions and exclusions of the Policy.

Concurrent review - for Inpatient stays of any kind, the professional review organization will pre-certify a limited number of days of confinement. Additional days of Inpatient confinement may later be pre-certified if a Covered Person receives prior approval.

(MO, NC & OK pre-certification requirements provision under Eligible Expenses in the MO, NC & OK Policies have a variation from above. Please consult the MO, NC & OK Policies for details.

FAQS

What is Short Term Medical Insurance?

Short Term Medical Insurance policies are crafted to offer temporary coverage during periods of transition, bridging the gap until you can obtain an Affordable Care Act (ACA) or Group Insurance plan. Unlike ACA plans, Short Term Medical Insurance policies are not bound by ACA requirements and may include exclusions and limitations not allowed in ACA plans. ACA plans are guaranteed issue, meaning they must cover certain “essential health benefits” (EHBs) and cannot deny coverage based on pre-existing conditions.

In contrast, Short Term Medical Insurance requires you to answer a series of medical questions to determine your eligibility, may not cover all EHBs, and does not provide coverage for pre-existing conditions. Due to these exclusions and limitations, Short Term Medical Insurance policies typically have lower premiums than ACA plans, making them a potentially viable option for temporary health insurance needs. However, if you have a history of medical conditions or have ongoing or chronic health issues, it is advisable to seek an ACA or other comprehensive insurance plan as soon as you are eligible to enroll.

Why would I want coverage for a short period of time?

Short Term Medical Insurance might be a suitable choice if you find yourself between jobs, missed Open Enrollment, don't qualify for Special Enrollment, are awaiting the start of a new job or an ACA plan, are a recent college graduate, or a seasonal worker who requires coverage for a limited time. Short Term Medical Insurance can provide the necessary insurance protection to help you transition smoothly to the next phase of your life.

Who should not buy Short Term Medical Insurance coverage?

Consumers experiencing ongoing medical conditions should prioritize securing ACA Major Medical plans. Additionally, individuals who require permanent coverage or comprehensive major medical benefits should consider ACA Major Medical plans as their best option.

How soon can Short Term Medical Insurance begin?

HealthBridge Short Term Medical Insurance coverage can commence on either the 1st or the 15th of the month, provided you meet the eligibility criteria and the initial payment has been received. During the enrollment process, you will have the opportunity to choose your preferred effective date.

Can I access my Short Term Medical Insurance benefits right away?

Your HealthBridge Short Term Medical Insurance* Policy provides coverage for accidental injuries that occur on or after the effective date of your Policy. Additionally, benefits for illnesses are available if the sickness manifests more than five days after your effective date. For cancer, coverage is accessible if it is diagnosed more than 30 days following the effective date of your policy.**

Is a Short-Term Medical Insurance plan considered “creditable coverage” under the Affordable Care Act?

No, Short Term Medical Insurance coverage is not compliant with the Affordable Care Act (ACA). These policies do not fulfill all the benefits mandated by the ACA. Short Term Medical Insurance plans are intended for limited durations and do not cover pre-existing conditions or provide complete preventative care. They are specifically designed to address unforeseen illnesses and injuries, as outlined in a defined and limited Schedule of Benefits.

Can I renew my Short Term Medical Insurance when my policy ends?

Your HealthBridge Short Term Medical Insurance Policy is valid for a designated duration, up to 364 days**, and cannot be renewed. If you wish to continue coverage after your current HealthBridge Short Term Medical Insurance expires, you will need to apply for a new Short Term Medical Insurance plan. This new plan will not serve as a continuation of your existing coverage. Consequently, your deductibles, waiting periods, maximum benefit limits, and maximum out-of-pocket responsibilities will restart under the new Short Term Medical Insurance policy. Additionally, any illness or condition that arises while under your current policy will be regarded as a pre-existing condition when you apply for the new plan.

Do I have to go to doctors in network?

Your HealthBridge Short Term Medical Insurance plan offers flexibility by not restricting you to a designated network. Nevertheless, it is beneficial to consult physicians and access additional services within the PHCS Practitioner Plus Ancillary Network (PHCS Network). By choosing providers within this network, you can avoid balance billing*** for services covered under your Policy.

Do I have to go to hospitals or facilities in a network?

Your HealthBridge Short Term Medical Insurance provides the freedom to choose any healthcare provider without being confined to a specific network. When you receive care from a hospital or facility, the coverage for eligible expenses under your HealthBridge Short Term Medical Insurance Policy is capped at 150% of the typical Medicare rates. This detail is present on your ID card, and it's crucial to inform your hospital or facility provider of this payment structure to prevent any misunderstandings. Although 150% of the Medicare rate is considered a reasonable payment, it may be lower than the rates charged by your hospital or facility. Consequently, the maximum benefit covered by your HealthBridge Short Term Medical Insurance Policy might be less than what your healthcare provider is willing to accept. If your hospital or facility does not agree to the benefit amount, you might be responsible for paying the difference, known as balance billing***, for any amounts not covered by your insurance.

Does this Short Term Medical Insurance plan cover prescription drugs?

Prescription drug coverage is not a benefit under your HealthBridge Short Term Medical Insurance plan, unless the drugs are administered during a covered inpatient hospital stay.

Are Maternity and newborn care covered?

Complications of maternity are covered, but not standard childbirth services.**

Does Short Term Medical Insurance cover dental and vision benefits?

No, Short Term Medical Insurance is specifically crafted to safeguard you against unforeseen illnesses or injuries and does not include dental and vision care coverage. Since Short Term Medical Insurance is intended for temporary use, it lacks some of the benefits that may be available through Affordable Care Act (ACA) plans. If you choose to obtain dental, vision, or any other insurance or non-insurance coverage from a different provider, please note that these products are not connected to your HealthBridge Short Term Medical Insurance.

Can I cancel at any time?

Members have the flexibility to cancel their membership at any time. Should a member decide to cancel within the first 10 days of their effective date, they are eligible for a full refund, provided no benefits have been used and no claims have been filed. If any benefits have been accessed or claims submitted, refunds will not be available. Beyond the initial 10 days, if members are dissatisfied with the plan, they can request cancellation, and their HealthBridge membership will conclude at the end of the current billing cycle for their most recent monthly payment. No further charges will be incurred.

Who do Members contact if they have questions about their HealthBridge membership plan?

For assistance, members can reach out to Customer Service at **866-438-4274**, where our friendly representatives are ready to help. If you need a detailed explanation of your Short Term Medical Insurance coverage, you can also consult your insurance agent. Should you have trouble recalling your agent's contact information, feel free to call Customer Service at **866-438-4274**, and we will gladly connect you with your agent.

* HealthBridge Short Term Medical Insurance is underwritten by Everest Reinsurance Company.

** Terms may vary by state. Consult your Policy for complete terms and limitations. (Waiting periods not applicable in KS or ND.)

*** Balance billing is when the provider is allowed to bill you for the difference between the amount billed by the provider and the amount allowed under your Policy. For example, if your doctor bills \$100 for your office visit and only \$70 is allowed under your Policy, your doctor may hold you responsible for the remaining \$30. Similarly, if a hospital bills you \$2,500 for a hospital visit and \$1,800 is equal to the 150% of Medicare allowable expense maximum under your Policy, your hospital may hold you responsible for the remaining \$700.

Importance of Reviewing State-Specific Sample Policies

When considering Short Term Medical Insurance plans, it is crucial for members to thoroughly review the state-specific sample Policies. Doing so ensures a comprehensive understanding of the schedule of benefits, definitions, terms, limitations, and exclusions that apply specifically to their state. **Coverage details can vary significantly from one state to another in some cases, certain coverages may not be available at all.** By familiarizing yourself with the sample Policies, members can gain clarity on how their insurance will function, ensuring they are well-informed about the scope and limitations of their coverage. This proactive approach is vital for making informed decisions and maximizing the benefits of their insurance plan.

This Short Term Medical Insurance does not use a required network of providers. You can see any provider for Covered Eligible Expenses. Maximum Allowable Expense means the maximum charge that will be considered as an Eligible Expense will be the less of billed charges, the Usual and Customary Fee, the negotiated or contracted discount, the maximum benefit under the Policy, or 150% of the Medicare allowable charge. Everest Reinsurance Company has discretionary authority to determine the Maximum Allowable Expense.

*Please make sure to review the Policy and Schedule of Benefits for full benefit details, definitions, terms, limitations and exclusions. **If there are any discrepancies between this brochure and the Policy, the Policy shall govern. Pre-Existing Limitations apply to some Benefits.***

THE SHORT TERM MEDICAL INSURANCE
INCLUDED IN THE MEMBERSHIP PLAN PROVIDES LIMITED BENEFITS
PLEASE READ THE FOLLOWING NOTICE ABOUT THIS POLICY:

IMPORTANT: This is a Short Term Medical Insurance Policy, NOT ACA health insurance.

This coverage is not required to comply with certain federal market requirements for health insurance, principally those contained in the Affordable Care Act. Be sure to check your Policy carefully to make sure you are aware of any exclusions or limitations regarding coverage of preexisting conditions or health benefits (such as hospitalization, emergency services, maternity care, preventive care, prescription drugs, and mental health and substance abuse disorder services). Your Policy might also have lifetime and/or annual dollar limits on health benefits. If this coverage expires or you lose eligibility for this coverage, you might have to wait until an open enrollment period to get other health insurance coverage. Also, this coverage is not “minimum essential coverage.”

LIMITED BENEFITS: Please read the Policy carefully for full details, terms, limitations and exclusions.

No benefits are payable for Sicknesses which arise during the first 5 days following a Covered Person’s Effective Date. (Not applicable in KS or ND)

No benefits are payable for cancer which arises during the first 30 days following a Covered Person’s Effective Date. (Not applicable in KS or ND)

See Policy Limitations and Exclusions for details and additional required notices.

Per the KS Policy, the Short Term Medical Insurance is considered a Mandate Lite Short Term Medical Insurance Policy which means an individual or group sickness and accident insurance plan that does not contain one or more of the Kansas-mandated benefits.
